SUMMARY

Detail-oriented Full-Stack Developer with professional experience building scalable web and mobile applications using React, NestJS, Angular, React Native, and .NET. Proficient in database architecture, RESTful API development, and business workflow implementation. Strong communicator with Aptis B2 English proficiency and experience working in Agile teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, SQL, HTML/CSS, PHP, $\text{\LaTeX}$
Frameworks & Libraries: React, NestJS, Angular, Next.js, React Native, .NET, Tailwind CSS
Databases & Cloud: PostgreSQL, MySQL, SQL Server, Supabase, Entity Framework Core
Tools & Methodologies: Git/GitHub, Docker, VS Code, Visual Studio, Figma, Agile/Scrum

EXPERIENCE

APETECH Solutions | *Full-Stack Web Developer* Oct. 2025 – Present

- Developed full-stack features for enterprise F&B and sports platforms using React and NestJS, contributing across UI, API, and database layers.
- Built procurement, inventory, order-processing, and master-data workflows while maintaining consistent business rules across system modules.
- Collaborated in an Agile/Scrum team to analyze requirements, resolve defects, and deliver production-ready features on schedule.

PROJECTS

F&B Management System | *React, NestJS, PostgreSQL* | *Full-Stack Developer* Oct. 2025 – Present

- Developed enterprise workflows for procurement, inventory control, product management, and order processing across frontend and backend services.
- Designed reusable React interfaces and NestJS APIs with validation and relational data handling to improve operational consistency.

SmartHRM | *Angular 19, React Native, .NET 9, PostgreSQL, EF Core* |    2026 – Present

- Built a three-tier human resource management platform with an Angular admin portal, React Native mobile app, and .NET Web API.
- Implemented RBAC, GPS-based attendance, shift and leave workflows, multi-level approvals, payroll processing, and employee lifecycle management.

Wedding Invitation Web App | *Next.js, NestJS, PostgreSQL, Tailwind, WebSocket* |    Mar. 2026 – Present

- Built a digital invitation platform with countdowns, guest confirmations, event tracking, and real-time RSVP dashboards.
- Developed SEO-optimized Next.js pages and NestJS APIs with WebSocket support for live updates.

CERTIFICATIONS & ACTIVITIES

Aptis ESOL International Certificate (B2 CEFR) | *British Council* Apr. 2026

Faculty Student Executive Board | *Committee Member* Sept. 2023 – Present

- Coordinated academic competitions and orientation events supporting more than 500 students.

EDUCATION

Saigon University Ho Chi Minh City, Vietnam
Engineer's Degree in Software Engineering (GPA: 7.5/10) Sep. 2022 – Nov. 2026

- Honors:** Academic Excellence Scholarships (2 semesters). **Coursework:** Data Structures & Algorithms, Database Management, Software Architecture.

INTERESTS

Building open-source projects, football, badminton, and music.
