SUMMARY

Detail-oriented Full-Stack Developer with professional experience building scalable web and mobile applications using React, NestJS, and .NET. Proficient in database architecture and API optimization. Strong communicator with Aptis B2 English proficiency and a proven track record in Agile team environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, SQL, HTML/CSS, PHP, $\LaTeX$
Frameworks & Libraries: React, React Native, NestJS, Angular, Vue, .NET, Tailwind CSS, Uno Platform
Databases & Cloud: PostgreSQL, MySQL, Supabase, Relational Database Design
Tools & Methodologies: Git/GitHub, Docker, VS Code, Visual Studio, Figma, Agile/Scrum

EXPERIENCE

APETECH Solutions | *Full-Stack Web Developer* Oct. 2025 – Present

- Developed a comprehensive Food & Beverage (FNB) management system handling procurement, inventory tracking, and order processing using React and NestJS.
- Built master data management module for a Pickleball platform, ensuring consistent reference data across microservices.
- Collaborated in an Agile/Scrum team, delivering features on schedule and maintaining 99.9% uptime for internal tools.

PROJECTS

CMS Digital Signage Platform | *React, NestJS, PostgreSQL, TypeORM, WebSocket* |    Dec. 2025 – Present

- Architected a full digital signage ecosystem: a web admin dashboard for content scheduling, plus native player apps for Android (APK) and Windows (EXE).
- Implemented real-time communication via WebSocket for instant content push, device heartbeats, and remote command execution.

Wedding Invitation Web App | *Next.js, NestJS, PostgreSQL, Tailwind, WebSocket* |    Mar. 2026 – Present

- Built a full-stack digital invitation platform featuring real-time countdown, guest confirmation, event tracking, and automated RSVP dashboards.
- Leveraged Next.js for optimized performance and SEO, and developed robust NestJS RESTful APIs with WebSocket support for live updates.

Booking Tour HimLamTourist | *React, NestJS, Supabase* |    Nov. 2025 – Feb. 2026

- Developed a full-stack e-commerce tour platform with dedicated customer booking and admin management layers.
- Integrated Supabase for secure multi-criteria tour queries, checkout flows, and user transaction history.

CERTIFICATIONS & ACTIVITIES

Aptis ESOL International Certificate (B2 CEFR) | *British Council* Apr. 2026

Faculty Student Executive Board | *Committee Member* Sept. 2023 – Present

- Coordinated academic competitions and orientation events, supporting over 500+ students.

LANGUAGES

Vietnamese (Native), English (B2 – Aptis)

EDUCATION

Saigon University Ho Chi Minh City, Vietnam

Engineer's Degree in Software Engineering (GPA: 7.3/10) Sep. 2022 – Nov. 2026

- Honors:** Academic Excellence Scholarships (2 semesters). **Coursework:** Data Structures & Algorithms, Database Management, Software Architecture.

INTERESTS

Coding open-source projects, football, badminton, listening to music.
